Cell Project: Visitor Presentation/Sales Pitch

Imagine that every cell in an organism’s body is competing against each other for “visitors.” You have been hired by the cell to produce a slide presentation highlighting some of the wonderful attractions found inside. The cell that attracts the most visitors wins a lifetime supply of glucose.

Your presentation must describe at least 10 attractions (organelles/structures) that will interest visitors to come to your cell. Be creative! You are trying to sell people on your cell! Make them want to come visit.

Final Project Due Date: ____________

Deadline #1 Due Date: ____________
Requirements: 1. Decide which 10 organelles will be in your presentation.
   2. Decide how you will use this organelle in your sales pitch.

Deadline #2 Due Date: ____________
Requirements: Rough draft of presentation with basic ideas down. Does not need to have all pictures in place.
Cell Project: Organelle Worksheet

Use this chart in your planning stages to organize your ideas. This needs to be completed by deadline #1 for a QUIZ grade.

Cell Project Grading Rubric

Content: 50 points

Presentation contains at least 10 organelles/structures, and each item relates somehow to its real purpose in the cell. 5 points for each organelle/structure included.

2 points will be deducted for each organelle that has an incorrect description.

Creativity and Effort: 25 points

To receive the full 25 points, the following five expectations must be met (5 points per item):

1. Shows clear evidence of a great deal of effort and creativity.
2. Very colorful and visually interesting.
3. Easy to follow and understand.
4. Creatively uses the organelles or structures.
5. Shows good use of illustrations/pictures.

Design: 25 points

To receive the full 25 points, the following five expectations must be met (5 points per item):

1. Presentation clearly highlights the cell of interest.
2. Pictures are inserted correctly.
3. Text is free of grammatical errors and typos.
4. Text is easy to read on the slide.
5. Pictures are easy to see on the slide.
