Understanding Political Cartoons
What are they?

0 In the late 1800's an increase in newspaper and magazine circulation caused a rise of political cartoons.
0 Make people think about political, societal, or governmental issues
0 Emphasizes one side of an issue
0 Uses humor and drawings to make its point
0 Play an important part in telling the history of a given period of time
How do they work?

- **SYMBOLISM** - An object that represents a larger idea or concept
- **EXAGGERATION** - Overstating or magnifying a problem
- **LABELING** - Make it clear exactly what objects or people stand for
- **ANALOGY** - A comparison between two unlike things that share some characteristics; help their readers see an issue in a different light
- **IRONY** - The difference between the ways things are and the way things should be, or the way things are expected to be
