

Great News,

Thanks in part to the lobbying efforts of Senator Greenstein and stakeholder testimony given at the Senate Budget and Appropriations Committee hearing on 6/13/13, S-2307 PASSED the initial step at the Senate committee level! We cannot thank enough the many stakeholders who gave of themselves to speak and/or support this important tax reducing legislation. Next the legislation will be presented to the full Senate. We do not have a date for such at this time. If it passes the Senate, then it goes to the Assembly and then on to the governor before it becomes law. Below please find the testimony of Dr. Hamilton and Mr. Gorski before the committee.
