

A message from MONROE TWP

Good afternoon School Community,

I wanted to reach out to you today with an update on the schools. As of Wednesday's announcement by Governor Murphy, all schools are closed until further notice. This means that there is no personnel in the schools. If you need to contact the school, please email your child's teacher or the building principal.

I want to congratulate all of our staff and parents and students for their work this week in the new remote environment. We are all learning this process together. Please be patient with each other and work together.

Following the requirements for social distancing, please be aware that there should be no groups gathering on any school grounds. Signs have been posted on all of the playgrounds.

Just a reminder that spring break is scheduled for April 4th through April 13th. There will be no remote education during this time.

I will continue to update the community as we get more information.

Have a great weekend and be well.

Dr. Alvich, Superintendent of Schools
