

MONROE TOWNSHIP BOARD OF EDUCATION
Annual Integrated Pest Management Notice
For School Year 2022-2023

Dear Parent, Guardian or Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. The Monroe Township School District has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic, preventive approach to managing pests that is explained further in the school's IPM Policy included with this notice. The Building & Grounds/Transportation Committee met on August 9, 2023 at the Monroe Township High School located at 200 Schoolhouse Road, Monroe Twp., NJ 08831 for the purpose of performing its annual review of the IPM plan. The meeting was announced, on the district website www.monroe.k12.nj.us and was open to the public. A record video of the meeting is maintained on the district webpage archive for review.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for Monroe Township School District is:

Name of IPM Coordinator: Jerry Tague
Business Phone Number: 732-521-1500
Business Address: 423 Buckelew Avenue, Monroe Twp., NJ 08831

The IPM Coordinator maintains the pesticide product label, and the Material Safety Data Sheet (MSDS) (when one is available), of each pesticide product that may be used on school property. The label and the MSDS are available for review by a parent, guardian, staff member or student attending the school. Also, the IPM Coordinator is available to parents, guardians and staff members for information and to discuss comments about IPM activities and pesticide use at the school.

As part of a school pest management plan Monroe Township Board of Education may use pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and the DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure.

The following pesticides have been used at these locations in the past 12 months:

Applegarth School:

Trade Name	Common Name	EPA Registration #
Maxforce FC Professional Ant Killer Gel	Fipronil	432-1264
EcoVia EC	Thyme Oil, 2-Phenthyl Propionate, Rosemary Oil	FIFRA 25(b) Exempt
