

VISION

Our Vision is to empower every child through learning, relationships, inspiration, and innovation so that they may become knowledgeable and empathetic citizens who will one day contribute to the global community. At Applegarth School, every student can achieve their potential in a safe, inclusive, and academically engaging environment. Our vision is to provide our students with the tools they will need to contribute to the global community.

MISSION STATEMENT

At Applegarth School, we strive to create a "home away from home" for our students and guide them on their academic journey by furthering their love of learning. We work to empower students to think critically, innovate, collaborate, inspire, and challenge themselves and one another. We will dedicate ourselves to boosting student achievement through data analysis and providing programs that meet the needs of all students to prepare them for the world beyond the walls of our school. All of this will take place within a culture of empathy and inclusiveness, where we choose our attitudes and strengthen others by being present for them, making their day, and choosing an attitude of kind and respectful behavior. We support our students by attending to the whole child, modeling friendliness, inclusiveness, supportiveness, and honesty at all times.
