A message from MONROE TWP

Dear Monroe Community,

The district was notified today of 4 students who have tested positive and 2 staff members who have tested positive.

A High School staff member and a Barclay Brook staff member each tested positive. Since school buildings have been closed since 12/23 for staff, there are no contacts identified.

One Woodland student, 2 middle school students and 1 high school students tested positive. Students have not been in the buildings since 12/15, if they are hybrid students, so no contacts were identified.

Please be advised that illnesses, especially COVID-19 positive results, must be reported to the school nurse even while students are fully remote and schools are not open for on-site instruction. The nurses are required to monitor and report the health and wellness of our students and staff to the health department and should be aware of what is happening among our school families. Please feel free to contact your school nurse with any questions or concerns.

All buildings remain closed until January 19. The district is planning to reopen school buildings for hybrid students on January 19. As we prepare to reopen for hybrid students, please report any travel, positive COVID test results, contact with positive cases, COVID-like symptoms, or contact with anyone who has COVID-like symptoms to your school nurse. This is for the safety and well-being of all.

Thank you and have a great evening.
