Monroe Township IT Department

A message from MONROE TWP

Dear Monroe Community,

We were notified today of a staff member testing positive for COVID-19 at Applegarth School. All close contacts were notified to quarantine and the class will be full remote for 14 days.

A second district staff member tested positive for COVID-19 but has not been in the district since November 25 so no close contacts were identified.

Two high school students reported testing positive for COVID-19. The students have been full remote so no contacts were identified.

OEM reported that a full remote middle school student tested positive. No close contacts are identified as the student has not been in the building.

Our system will only work if we are committed to continuing safe practices. This means wear a mask, wash and sanitize your hands frequently, maintain social distancing when possible, monitor your own and your family’s health, if your child is in the Hybrid Learning Model DO NOT send them to school, in person, if anyone in the family unit is ill or symptomatic of COVID or the flu, and of course, rapid self-reporting so we can initiate immediate contact tracing and quarantining.

Thank you.
