

Dear MTMS Parent/Guardian,

As we prepare to administer the PARCC assessment we would like you to take the time to note all of the information your child will need below.

- **The PARCC testing schedule for each grade at MTMS:**

6th grade -April 16-17-18-19-20-23

7th grade -April 24, 25, 27, 30, May 1, 2

8th - May 3, 7, 8, 9, 10, 11, 14, 15 this includes the Science test

- April 26th is Take Your Child to Work Day and we will not be giving any test that day in order for you and your child to take part in the event if you so choose.
- We recommend that your child bring in their own pair of ear buds/head phones during testing to provide an additional level of comfort with the testing process. **Please note that any earbuds/head phones should have a wire** to plug into the computer. Wireless devices of any type will not work on our equipment. We will have hearing devices on site should a student not come with a pair.
- We would also like to remind you that there are **no personal electronic devices allowed in the testing site**. To that end if a student has a cell phone they will be asked to place it in their book bags and leave their book bags in the back of the testing room. If the student has no bag the phones will be collected and returned at the end of the days testing. If your child has an iWatch or other form of "smart" watch the same

procedures will be followed. It is recommended that, due to their size, any "smart" watches be left home for the duration of the PARCC testing to avoid loss or damage.

We thank you for your cooperation.

-MTMS Administration
